Sir:

The undersigned requests that a Certificate of Correction be issued for the above-identified patent as indicated on the attached Form PTO-1050. This request is being made in order to correct errors on the cover page of the patent, as well as in the specification.

On the cover page, please change item (54), the title, as indicated on the attached PTO-1050 form, to be as is the title appears in the specification as filed, and on the Declaration for U.S. Patent Application.

Also, on the cover page, please change item (57), the Abstract, as indicated on the attached PTO-1050 form. This correction simply clarifies that "the material" refers to the "insulation material" of line 3 of the abstract.

The correction in the specification in column 23 corrects a Patent and Trademark Office error.

It is respectfully submitted that no new matter has been added.

Since some of the errors corrected herein were made by our office, we are enclosing the fee of \$100.00. If any additional fees are required, please charge our Deposit Account No. 01-2340.

Respectfully submitted,
